MESSAGES FROM THE GOVERNOR

April 11, 1992

Madam President, Mr. Speaker
and Members of the Legislature
State Capitol Building
Lincoln, NE 68509

Dear Madam President and Senators:

Today I have signed LB 1022 and forwarded it to the Secretary of State.

LB 1022 includes some items that were not in my original budget recommendations. There are also some items that I vetoed last year because I was presented a budget that was out of balance. This year, you have presented a budget that is in balance and consistent with my overall philosophy of holding the line on spending. We have had a long, hard session and have been able to work out a solution to the personal property tax crisis.

Briefly, we have seen this year that we can work together to achieve the priorities of both the Administration and the Legislature. I support the many good programs contained within LB 1022. It is for these reasons that I have not exercised my line-item veto authority.

However, I must offer one last caution. There are turbulent economic times ahead of us that will cause a shortfall in state revenues. The Legislature projects that shortfall to be in excess of $25 million next year. I believe the shortfall may be even greater. Programs contained in LB 1022 this year will again be viewed in light of anticipated budget reductions next year. Nothing will be exempt from the budget review process. We must begin a major review of state services and the state's organization and make it more efficient. I will be presenting those changes to you next January when I submit my budget and hope we can again come to agreement on the direction we must go to restrain state spending and make it as efficient as possible.

Again, I commend you for your fiscal restraint and look forward to our continued excellent working relationship.

Sincerely,
(Signed) E. Benjamin Nelson
Governor

ATTORNEY GENERAL'S OPINION

Opinion No. 92060

DATE:	April 13, 1992
SUBJECT:	LB 719A, as Amended - Constitutionality of Granting Authority to the State Tax Commissioner to Adjust Railroad and Car Line Property Tax Valuations.
REQUESTED BY:	Senator Loran Schmit Nebraska State Legislature
WRITTEN BY:	Don Stenberg, Attorney General L. Jay Bartel, Assistant Attorney General

You have requested our opinion regarding the constitutionality of a recent amendment to LB 719A. This amendment, which is contained in section 219 of the bill, would allow the State Tax Commissioner to adjust the value of railroad and car line properties for tax purposes to "the percentage of the comparable taxable commercial and industrial property pursuant to federal statute or Nebraska federal court decisions applicable thereto." Your sole question is whether this provision establishes an unconstitutional delegation of legislative authority to the State Tax Commissioner.

As a general rule, the Legislature may not delegate legislative authority to an administrative agency or official. State v. Sprague, 213 Neb. 581, 330 N.W.2d 739 (1983); Laverty v. Cochrane, 132 Neb. 118, 271 N.W. 354 (1937). The Legislature may, however, grant general powers to an agency or official and delegate to such agency or official the power and duty to administer and enforce an act. State v. Sprague, supra; State ex rel. Douglas v. Nebraska Mortgage Finance Fund, 204 Neb. 445, 283 N.W.2d 12 (1979). "{T}he legislature is clothed with power to delegate to administrative boards and agencies of the state the power of ascertaining facts upon which the laws are to be applied and enforced. It may also authorize the doing of specific acts necessary to the furtherance of the purposes of the act." Lennox v. Housing Authority of the City of Omaha, 137 Neb. 582, 592, 290 N.W. 451, 458 (1940). "{W}here the Legislature has provided reasonable limitations and standards for carrying out the delegated duties, no unconstitutional delegation of legislative authority exists." In re Application U-2, 226 Neb. 594, 607, 413 N.W.2d 290, 299 (1987).

In State ex rel Douglas v. Nebraska Mortgage Finance Fund, supra, the Nebraska Supreme Court, discussing the requirement that the Legislature provide sufficient standards to guide the exercise of powers granted to an administrative agency, stated:

> The question of how far the Legislature should go in filling in the details of the standards which an administrative agency is to apply raises large issues of policy in which the Legislature has a wide discretion, and the court should be reluctant to interfere with such discretion. Such standards in conferring discretionary power upon an administrative agency must be reasonably adequate, sufficient, and definite for the guidance of the agency and the exercise of the power conferred upon it and must also be sufficient to enable those affected to know their rights and obligations. 1 Am.Jur.2d, Administrative Law, § 117, p. 923. The modern tendency is to be more liberal in permitting grants of discretion to an administrative agency in order to facilitate the administration of laws as the complexity of administration and governmental conditions increases. 1 Am.Jur.2d, Administrative Law, § 118, p.925

204 Neb. at 465, 283 N.W.2d at 24.

Judged by these standards, it is our opinion that the authority granted to the State Tax Commissioner to adjust railroad and car line property valuations under section 219 of LB 719A does not represent an unconstitutional delegation of authority to the Tax Commissioner by the Legislature. This section does not propose to grant to the Tax Commissioner unlimited discretion in adjusting railroad or car line property values for tax purposes. Rather, it mandates that the Tax Commissioner calculate defined ratios involving railroad and car line property and commercial and industrial property in determining the taxable value of railroads and car lines. The Tax Commissioner is permitted to adjust the values of railroad or car line properties to the percentage of comparable taxable commercial and industrial property only "{i}f the ratio of the taxable value of railroad and car line personal or real property exceeds the ratio of the comparable taxable commercial and industrial property by more that five percent." LB 719A, § 219(2). This provision is obviously designed to permit the Tax Commissioner to adjust railroad or car line property values for purposes of compliance with Section 306 of the Railroad Revitalization and Regulatory Reform Act of 1976 {the "4-R Act"}. Under these circumstances, we believe that this provision prescribes adequate standards limiting the authority of the Tax

Commissioner. Therefore, in response to your specific question, we conclude that the bill does not impermissibly delegate legislative authority to the Tax Commissioner.

Very truly yours,
DON STENBERG
Attorney General

Section 1. That at the general election in November 1992 there shall be submitted to the electors of the State of Nebraska for approval the following amendment to the Constitution of Nebraska to amend Article VIII, sections 1 and 2:

CVIII-1 "The necessary revenue of the state and its governmental subdivisions shall be raised by taxation in such manner as the Legislature may direct. Taxes shall be levied by valuation uniformly and proportionately upon all tangible property and franchises~~, except that~~ with the following exceptions: (1) The Legislature shall exempt all tangible personal property from taxation except for motor vehicles that are not inventory; (2) the Legislature may provide for a different method of taxing motor vehicles and may also establish a separate class of motor vehicles consisting of those owned and held for resale by motor vehicle dealers which shall be taxed in the manner and to the extent provided by the Legislature and may also establish a separate class for trucks, trailers, semitrailers, truck-tractors, or combinations thereof, consisting of those owned by residents and nonresidents of this state, and operating in interstate commerce, and may provide reciprocal and proportionate taxation of such vehicles; PROVIDED, that such tax proceeds from motor vehicles taxed in each county shall be allocated to the ~~state,~~ counties, townships, cities, villages, and school districts of such county in the same proportion that the levy of each bears to the total levy of the county on ~~personal tangible~~ taxable property; and ~~(2)~~ (3) the Legislature may provide that agricultural land and horticultural land, as defined by the Legislature, shall constitute a separate and distinct class of property for purposes of taxation and may provide for a different method of taxing agricultural land and horticultural land which results in values that are not uniform and proportionate with all other tangible property and franchises but which results in values that are uniform and proportionate upon all property within the class of agricultural land and horticultural land. The Legislature may enact laws to provide that the value of land actively devoted to agricultural or horticultural use shall for property tax purposes be that value which such land has for agricultural or horticultural use without regard to any value which such land might have for other purposes or uses and may prescribe standards and methods for the determination of the value of real or other tangible property at uniform and proportionate values. Taxes uniform as to class of property or the ownership or use thereof may be levied by valuation or otherwise upon classes of intangible property as the Legislature may determine, and such intangible property held in trust or otherwise for the purpose of funding pension, profit-sharing, or other employee benefit plans as defined by the Legislature may be declared exempt from taxation. Taxes other than property taxes may be authorized by law. Existing revenue laws shall continue in effect until changed by the Legislature. The Legislature may provide that livestock shall constitute a separate and distinct class of property for purposes of taxation and may further provide for reciprocal and proportionate taxation of livestock located in this state for only part of a year."

CVIII-2 "The property of the state and its governmental subdivisions shall be exempt from taxation. The Legislature by general law may exempt property owned by and used exclusively for agricultural and horticultural societies, and property owned and used exclusively for educational, religious, charitable, or cemetery purposes, when such property is not owned or used for financial gain or profit to either the owner or user. ~~Household goods and personal effects, as defined by law, may be exempted from taxation in whole or in part, as may be provided by general law, and the Legislature may prescribe a formula for the determination of value of household goods and personal effects.~~ The

MESSAGE FROM THE GOVERNOR

April 14, 1992

Madam President, Mr. Speaker
and Members of the Legislature
State Capitol
Lincoln, NE 68509

Dear Madam President and Senators:

Engrossed Legislative Bills 718 and 718A were received in my office on April 13, 1992.

LB 718 provides a significant extension of our state's current gambling laws by allowing certain types of off-track wagering.

I have concerns that LB 718 and LB 718A do not provide the assurances of adequate regulation and enforcement of off-track wagering that would be necessary for me to sign these bills. Establishing the necessary safeguards must involve both industry representatives and those who regulate the industry. I am not convinced that such involvement has taken place. Therefore, I am returning LB 718 and LB 718A without my signature and with my objections.

Sincerely,
(Signed) E. Benjamin Nelson
Governor

April 15, 1992

Madam President, Mr. Speaker
and Members of the Legislature
State Capitol Building
Lincoln, NE 68509

Dear Madam President and Senators:

I am returning LB 562 with my objections.

Just three years ago, LB 305 expanded the statutorily permitted uses of the Department of Labor's Employment Security Special Contingent Fund. In passing that bill, the Legislature sought to utilize this source of funds in the most effective manner possible for increasing employment and employment training opportunities.

LB 562 for all practical purposes would entirely reverse those changes which have permitted significant appropriations for job training and related activities of the Technical Community Colleges and the Department of Economic Development. By capping the Special Contingent Fund at one million dollars and diverting any excess to the

Unemployment Compensation Fund, LB 562 leaves no money for ongoing programs at the Technical Community Colleges, without reducing the emergency balances maintained for programs at the Department of Labor. LB 562 would also eliminate funding of DED's Job Training Program, which it has used effectively to attract and retain businesses in Nebraska while upgrading the skills of employees.

With my veto, I seek to retain Legislative flexibility in the uses of the Special Contingent Fund and preserve an important fiscal asset in our arsenal of programs for improving employment opportunities in Nebraska. Especially with a challenging biennial budget fast approaching next year, this is not the time to cut our options and indirectly place more burdens on the general fund.

Sincerely,
(Signed) E. Benjamin Nelson
Governor

April 15, 1992

Madam President, Mr. Speaker
and Members of the Legislature
State Capitol
Lincoln, NE 68509

Dear Senators:

Today I signed and delivered to the Secretary of State LB 245 and LB 245A.

LB 245 establishes the Nebraska Schools Accountability Commission. This Commission of eleven Nebraska citizens, appointed by the Governor, is charged with proposing by September 1994 through an open process, the basic knowledge and skill requirements which our children should learn in our public schools. The Commission must also develop an assessment system by May 1996 that will measure in a reliable, accurate and educationally sound way how well Nebraska students, in the aggregate, are performing. The Commission's task covers the five core curricular areas of math, science, reading, language arts and social studies. Local school boards, however, will retain responsibility for the content of their instructional programs within the broad state curriculum frameworks developed through this process.

As the result of an amendment, LB 245 also in effect re-adopts LB 511, which was passed and signed last year in order to correct a possible procedural flaw in the way that legislation was enacted. (LB 511 modified the school affiliation and merger laws for elementary-only school districts.)

In recent months, and especially over the last few days, I have received an outpouring of mail and calls questioning and strongly criticizing the bill. While this at first surprised me, I recognize that few things are as important to parents as what their children are taught, how they are taught, how they are tested, and how the results of tests are used.

The Schools Accountability Commission has an ambitious task before it. The task, however, is a critical and vital one. Our nation and our state must be economically competitive (and I would add, morally and culturally strong), in a rapidly changing world. Study after study, as well as testimonials from employers (ranging from high-tech corporations to local businesses), have shown that our high school graduates are not the high performance learners and workers that we need.

While the process established by LB 245 does not guarantee the results we all seek, it is a reasoned and timely response to our education challenge. I invite Nebraskans to follow the Commission's work closely and, more important, to become involved in school reform activities in their own communities.

Sincerely,
(Signed) E. Benjamin Nelson
Governor

Madam President, Mr. Speaker
and Members of the Legislature
State Capitol Building

Dear Madam President and Senators:

Today I signed LB 754 and delivered it to the Secretary of State.

The most important provision of LB 754 extends the ethanol producer inventive an additional three years or through the year 2000. The incentive provides a 20 cent credit for each gallon of ethanol produced in the state.

New jobs and new industries are vital to Nebraska's future. However, attracting these new industries to Nebraska is difficult, especially when we must compete with many other states for development opportunities. In addition to the historical ties ethanol producers have to other states, Nebraska must also overcome inherent competitive advantages other states have such as market proximity, lower transportation costs, transportation availability, and lower commodity prices. Also, the nation's increasing demand for ethanol has been met through plant expansion in other states rather than new plant construction, which costs more. It is clear that these incentives have been successful in attracting to Nebraska the nation's only two new ethanol plants in the past six years, and have the potential to attract several new large plants to the state over the next few years.

The long-term benefits to the state from an expanded ethanol industry are enormous. If the incentives succeed in attracting new plants and new jobs to the state -- a goal I strongly support -- they will provide the state with significant long-term benefits. Nebraska has been a leader in ethanol marketing, promotion, and research since the beginning of the industry, and LB 754 can help attract the additional ethanol production which belongs in Nebraska.

Sincerely,

Patrick J. O'Donnell
Clerk of the Legislature
State Capitol, Room 2018

Dear Mr. O'Donnell:

Engrossed Legislative Bills 1098, 1257, and 1257A were received in my office on April 14, 1992.

These bills were signed by me on April 17, 1992, and delivered to the Secretary of State.

Sincerely,
(Signed) E. Benjamin Nelson
Governor

Madam President, Mr. Speaker
and Members of the Legislature
State Capitol

Dear Madam President and Senators:

I have signed LB 1241 on April 17, 1992, and delivered it to the Secretary of State. LB 1241A is being returned with my signature but with certain line item reductions.

LB 1241 provides for needed consolidation of state building leases under the Department of Administrative Services. The bill will provide many benefits to the State of Nebraska as we deal with leasing space by one agency instead of the many agencies currently proceeding on their own.

My objection to LB 1241A, however, is in the appropriation and construction costs associated with the Stone Building at the Norfolk Regional Center Campus. Although I have been assured much work needs to be done to update the building, it is poor policy to appropriate $300,000 of state funds until an orderly review is made of the project. The statutory capital construction process requires a program review for all projects costing over $100,000. This review is necessary for all capital construction projects before an appropriation is to be made.

I am, therefore, reducing the appropriation made for remodeling the Stone Building from $300,000 to $50,000. The $50,000 will allow us to proceed with an engineering evaluation and have legitimate cost estimates available to make a decision regarding renovation. If it is then feasible to remodel the building, we will follow the normal capital construction process whereby the Department of Administrative Services will make the necessary budget request next year.

This approach will allow for a full assessment of the building's needs before construction funds are allocated. This is, in my opinion, the most fiscally responsible course of action.

Sincerely,
(Signed) E. Benjamin Nelson
Governor

Dear Madam President and Senators:

Engrossed Legislative Bill 835e was received in my office on April 14, 1992.

LB 835e places a cap on the assessment against health insurance companies to support the Comprehensive Health Insurance Pool (CHIP) not to exceed the premium and retaliatory tax liability of an insurer. The bill also provides a waiver for the pre-existing condition exclusion under certain circumstances.

Placing a cap on the assessment levied against insurance companies does not address the rapidly increasing costs of the pool. In 1991, policy holders paid approximately $6.3 million in premiums. The total assessment paid by insurance companies in that same year was about $3.5 million. These assessments are projected to be between $5.1 million and $6.4 million in 1992. Assessments at this level would total more than the amount of health premium taxes paid by insurers on Nebraska business. These assessments would then be offset against other premium taxes, such as those paid on life insurance. I am concerned that the pool will eventually become too costly for everyone involved, effectively defeating the purpose of the CHIP Act.

I have signed LB 835e with the hope that a more permanent solution will be found before the cap on assessments sunsets in 1995.

Sincerely,
(Signed) E. Benjamin Nelson
Governor

Dear Madam President and Senators:

LB 556 and LB 556A were received in my office April 14, 1992. This bill was signed by me on April 17, 1992 and delivered to the Secretary of State.

LB 556 was introduced as a method to reform campaign financing by providing public financing for campaigns and limiting contribution and spending amounts. The legislature passed the bill with the intent of reducing the cost of running for public office. I share the concerns of those who believe the bill doesn't solve the problems of curbing the high cost of running for public office. I am however, signing LB 556 with the hope that the measure will provide a beginning to campaign financing reform and provide a framework for the legislature to build on.

Sincerely,
(Signed) E. Benjamin Nelson
